

CODIAD

REVIVE YOUR MOJO AND INCREASE INTIMACY.

Fferyllwyr Llŷn offer a discreet, confidential and professional erectile dysfunction service at our pharmacies.

Erectile dysfunction (ED) is when a man struggles to get or keep an erection, usually due to a combination of reduced blood flow to the penis and associated performance anxiety.

It can be a sign of a thickening of the blood vessels as well as other conditions.

Sometimes, the pharmacist may advise a further follow up with your GP.

➔ [Read more about ED and ways you can support your health for improved erectile function.](#)

ED happens to most men at some point but if it keeps happening to you, we can give you the right advice to improve your health, suggest the tests you should get and can prescribe medicine to help; providing it's suitable for you.

There's no need for a face-to-face discussion and your prescription can be ready for discreet collection at any of our pharmacies.

If we've prescribed you ED treatment before, you can select to 're-order' after you've started your consultation.

INITIAL CONSULTATION

To arrange an initial consultation, we request you [complete this confidential online form](#) which will only be seen and reviewed by one of our highly experienced and professional independent prescribing pharmacists. They will review this information and alert you if approved how and where you can arrange to pick up your medication. There will be sometimes occasions where the pharmacist may need to have a discussion about this but we can arrange a suitable discreet time for this to be done that suits you. The usual turn around for this will be 2 working days (Monday to Friday).

[Repeat prescription for erectile dysfunction treatment.](#)
